

# The Window Glass Company (Bristol) Ltd

## ENVIRONMENTAL PROTECTION POLICY

The Window Glass Company (Bristol) Ltd considers that the management of the environment ranks equally with other primary business objectives for the company.

The responsibility for implementing this policy rests with the Directors who will regularly audit the effectiveness of the policy. Line managers will take the lead from this policy and will consider environmental issues to be of equal importance to all other management functions.

Proper regards will be given to the protection and conservation of the environment through pollution prevention, waste minimisation and environmental sustainability initiatives and strategies, to this end the company will:

- a) be committed to providing a safe and healthy workplace, and in carrying out our normal work to enhance the wider environment and minimise any harmful impact as far as we are able;
- b) ensure environment management is formally assigned to the Directors who shall ensure compliance with this policy and best current practice;
- c) ensure that staff are reminded that minimising waste is good for the company and good for the environment;
- d) keep records of the actions taken to ensure and maintain environmental good practice;
- e) Source our products from like minded organisations who will as far as is reasonably practicable adopt the same policy as ourselves.
- f) not become complacent and will remain committed to a high level of environmental protection and, where possible, enhancement.
- g) Review this policy if new techniques become available or if legislation changes that affects our undertaking.
