Dear Mr Marks

Indicative testing of a curtain wall panel to the glazing removal test methods given in BS7950: 1997 – Project No. 238722

I am pleased to confirm that in accordance with quotation reference Q2722 dated 3 August 2007 the curtain wall panel specimen was successfully tested using the following test methods given in BS7950: 1997 *Incorporating amendments 1, 2 and 3*:

- A5.1 manual glazing removal test
- A5.2 mechanical glazing removal test

The curtain wall panel specimen tested was as detailed in drawing 'Proposed test panel – Wembley Central, dated 1 August 2007' and was manufactured by the Window Glass Company (Bristol) Limited. The drawing is given in Annex A.

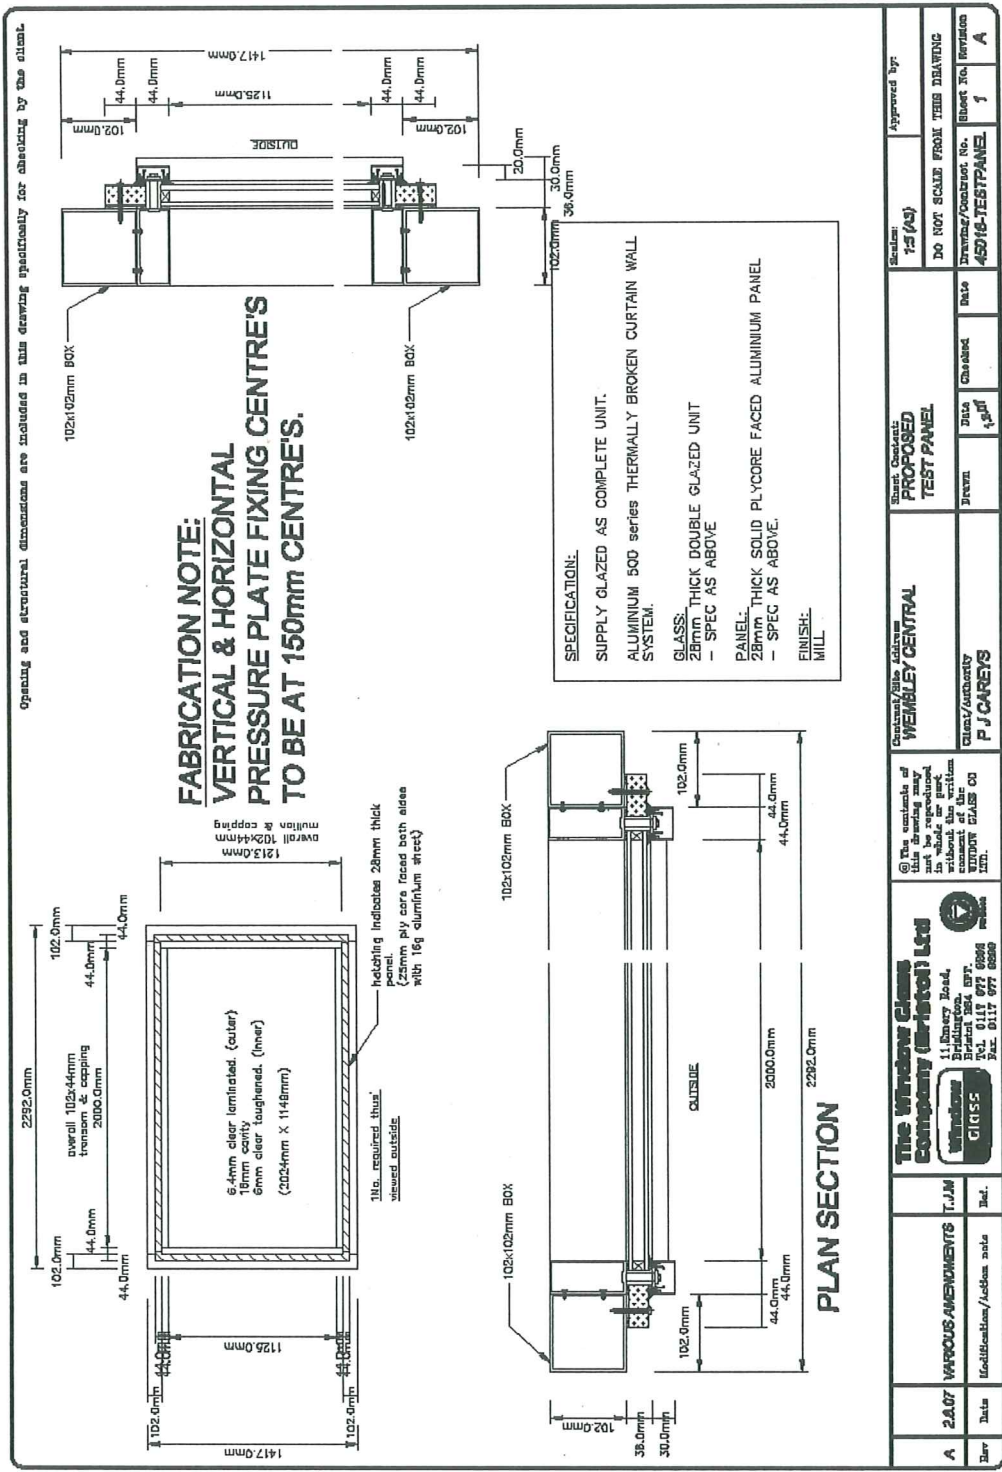

The tests confirmed that it was not possible to remove the glazing from the panel using the methods described in the standard.

Please note that the results only apply to the specimen tested and although curtain walling is not covered under the scope of BS7950 the test methods were adopted to determine the likely performance of the cladding panel against the removal of the glass.

Yours sincerely

Paul Dillon
